EDUCATION

Bachelor of Science in Computer Science and Engineering

April 2018 - June 2023

Ahsanullah University of Science and Technology, Dhaka, Bangladesh

PROFESSIONAL EXPERIENCE

eComFixR – Junior Web Developer

Aug 2025 – Oct 2025

- Developed and customized responsive Shopify & WordPress websites and plugins. Worked with PHP, HTML5, CSS3, JavaScript, jQuery, Git, and WooCommerce.

RESEARCH EXPERIENCE

Natural Language & AI research Lab – Researcher

Aug 2025 – Present

- Conducted empirical studies on social bias, hallucination, and cultural reasoning across diverse LLMs.

Undergraduate Research Work (*Ahsanullah University of Science and Technology*)

May 2022 – June 2023

Thesis Title: “Explainable AI for Medical Imaging: A Deep Learning Approach towards Classification of Cervical Cancer”

Supervisor: Mr. G. M. Shahariar

- Developed a deep-learning-based detection system by fine-tuning CNNs with cost-sensitive and supervised contrastive learning, achieving 97.29% classification accuracy surpassing benchmarks, and implemented 5 explainable AI (XAI) techniques to ensure model transparency and trustworthiness.

PERSONAL PROJECTS

- Melodia** – (ReactJs, Tailwind CSS, Javascript, NodeJs, MongoDB, Stripe API) | [Live Site](#) | [Github](#) 05/2023
 - Built a single-page online education platform with Stripe payments, allowing students to enroll in classes and instructors to manage courses and bookings. Includes private routes, CRUD operations, and admin panel for feedback management.
- Lego World** – (ReactJs, Tailwind CSS, Javascript, NodeJs, MongoDB) | [Live Site](#) | [Github](#) 04/2023
 - Built a toystore platform with Firebase authentication, enabling product creation, displaying a dynamic product catalog and management through advanced CRUD operations, including advanced search and responsive design.
